

# ***THE MACOMB MAESTRO***

Issue no. 1  
Dec 1 ' 2021

## **Classical Notes on**

*Technology, Business Strategy, Finance, Civics, Advanced Learning and Education, The Arts, and Sports Education, Health and Wellness, and Up-Coming Events*

## **WELCOME TO THE FIRST EDITION**

Welcome to the first edition of ***THE MACOMB MAESTRO*** published for December 1st, 2021 “invented, architect and authored by” **Maestro Michael**

(M<sup>2</sup> or M-squared), a professionally trained vocalist trained by a retired Diva of the Michigan Opera Theatre – Mary Scullion.

M-squared or M\*M or M<sup>2</sup> a graduate of Lawrence Technological University located in Southfield, Michigan graduated with a Bachelor of Science in Applied Mathematics with minors in Physics and Chemistry as a CUM-LAUDE was born with a 400+ year legacy in music as pianists, violinists, and vocalists. The legacy lives on as today some 27 instruments make up the musical talents of immediate family.

M<sup>2</sup> began his musical journey at 3 years old learning how to match a tone. At 4 sang a harmony, at 5 read music, at 7 taught music, at 8 sang his first public solo in front of 750+ with no microphone. After over 4 years of private vocal training lessons weekly, practicing 30-40 hours a week, uses his talent to help open doors that few ever get to even know they are there... let alone discover the magic found behind them.

This newsletter will reveal some of that magic as it happens looking to share and teach others how to see these magical doors that in the end becomes their destiny.

## WHAT's in the NAME?

The name of this newsletter Macomb Maestro is very suggestive in nature in that it represents the very best of a well-intended writing meant to provide practical insights on the journey of excellence in education and experiences to garnish a *life-well-lived*. It doesn't mean vast riches monetarily, but it does mean vast riches in terms of experiences and relationships that last a life-time. It does mean a life that has seen the support it needs to minimize "unwise decisions" and to learn to live life working your passion every day.

Macomb represents the county in which I live and am very proud of at the moment. Being involved with the Macomb Chamber of Commerce led by John Johnson introduces its members to leaders in the county at all levels of government. He also brings in special personalities to speak on a monthly basis, a making each event elegant as member businesses sponsor each one. Mr. Johnson is a Master or Maestro in his own right for being able to mix local politics, helping to generate business for its business members, having the area leaders in the churches be intimately involved, helping to grow non-profits that help those who cannot help themselves, sponsor fund raisers and events for the community, get the area schools involved, create fun volunteer opportunities, and facilitate new relationships in the county making it a better place each and every month.

As a result what you see are Governmental Leaders who are all kind to one another, they work together for the betterment of the residents making Macomb County about the only county in the US that is financially sound, a county that has a balance of lifestyles to include farms in the north, Lake St. Clair (one of Great Lakes) to the east, Major Automotive and US Military Operations in the mid-section, a fantastic retail section called "The Golden Ring," and cities like Warren and Sterling Heights who are progressing nicely whereas almost all

other areas in Michigan are struggling.

The word Maestro in this context means “having the nature of many talents and capabilities” as result of being raised from a “village” of teachers, mentors, leaders, and family who positivity impacted such an individual. That beM<sup>2</sup>. A Maestro is not accidental, rather a person of many talents is intentional, one who has the providence of such a legacy created by The Village.

Having worked in the library from 5<sup>th</sup> to 12<sup>th</sup> grade because I didn't want to stay outside in the cold for recess, learned and studied a book of magic... *The Webster Unabridged Dictionary*. Taught and inspired to expand my vocabulary from my father who was the “Stoneman” at a Financial Services Printshop – Reardon Financial Printing, he amassed a huge vocabulary proofreading lead type upside down and backwards for Annual Reports, Prospectuses, Proforma's, Legal Documents, and Magazines, learned new words all the time as progressive businesses were expanding or created. He was many times ahead of New Editions to the book of magic. As a result, most days in High School started my day looking up a word and used all the definitions of the word all day long, annoying to most, and comical to my teachers. Sorry for those I annoyed, but it was PURE FUN!! I looked up the word Maestro in the Webster Dictionary and this is what I found.

**'maestro'**

**noun**

mae·stro | \ 'mī-(,)strō \

plural **maestros** or **maestri** \ 'mī-,strē \

### Definition of *maestro*

: a master usually in an art  
*especially*: an eminent composer, conductor, or teacher of music

### Synonyms & Antonyms for *maestro*

#### Synonyms

ace, adept, artist, authority, cognoscente, connoisseur, crackerjack (also crackajack), dab [chiefly British], dab hand [chiefly British], expert, fiend, geek, guru, hand, hotshot, master, maven (also mavin), meister, past master, proficient, scholar, shark, sharp, virtuoso, whiz, wizard

#### Antonyms

amateur, inexpert, non-expert

Perhaps just for the fun of it use the word Maestro in conjunction with the Synonyms and Antonyms and explore the possibilities of using the word as a memory hook, a tool I use for strangers or newly introduced friends, neighbors, and associates to remember you by. By all means have some fun with it!! Smile, laugh, have some fun, look for ways to be kind to others, and you will enjoy each day God has blessed you with!!

Recently meeting many new associates after learning of my background say “man of many talents” triggered a reading that used that phrase to title the individual they were writing about as a Maestro. Thus, the name Maestro having been written in the title of this newsletter ***THE MACOMB MAESTRO***

### BOOK DEAL ANNOUNCEMENT

Motivated by the fact that public education in the USA on average has been in decline for some time now decided to write a book about what should become the norm in the USA for the country to support itself in an ever-progressive world of technological advance. It is a disappointing fact that children in most urban centers in the USA are severely disadvantaged

as “the village” required for a great education is non-existent, meaning it is impossible to expect much. This book *THE 5 R's* looks to help educate parents and leaders to “re-establish” The Village and to invigorate it to obtain excellence not only for the child, but for the future of the community.

This will be my first experience working with Xulon Press and their staff as we work together to take this work and infuse inspiration and motivation for parents and leaders to make a difference by turning the tide of ever declining quality of education, and then pressing forward into the future with a promise to meet and even exceed the challenges out there today.

*THE 5 R's* refers to Reading wRiting aRithmetic the aRts and spoRts – *Creating Tomorrow's Masterminds Today*. The book is meant to be a Practical Guide to providing a stellar education for children by the age of 18. Stellar meaning to have obtained the equivalent of a bachelor's degree, or Professional Certification(s), or to Own and Operate a Business Enterprise, thus able to support ones-self using the passion and talents developed in their 18-year-old journey.

Practically speaking one can obtain a Professional Grade in Art, Sports, and Music, know and practice Life Skills commensurate to the community you wish to live in – Urban vs. Rural vs. Suburban. In addition one can; Understand and practice the integration of faith in your life, To value a clean value-added holistic lifestyle meant to last 100+ years as the body does what it knows best, to heal itself, To understand and practice giving back to community, To know all key areas of your local civic affairs and be involved, To value Volunteering and Volunteer to “re-Produce” what you value most, To learn how to learn at a very early age enabling one to virtually be able to learn any subject, and finally Do It With Pleasure having fun every step of the way.

This can easily set the stage towards experiencing a *life-well-lived* for “*the average*” individual. In coming months excerpts of the book will be called out and discussed until its publication is finalized in July of 2020, so stay tuned and experience the journey.

## **TECHNOLOGICAL ADVANCEMENT ANNOUNCEMENT**

As a technologist from the late 70's when punch cards and paper tape were the norm, over the decades I have seen technology progress many times in the form of giant steps forward, like the era when punch cards were replaced with monitors, and monitors were replaced with the PC, and then the Internet and IP networks were introduced, and ever faster ever smaller computers entered the marketplace.

When Smart Phones hit the market life changed drastically, but at the data center things have been relatively stable for some time. Servers, switches, modems, massive cabling enterprises even with wireless networks have not changed as much as the personal computing space. I wanted to announce a new advance remaking current technology in the form of a server on a card similar to a Blade has been developed and tested. In Beta for manufacturing as this letter

is being written, the card is roughly 50 times more effective than the Blade, meaning it takes 1/50<sup>th</sup> of the space, and is about 50 times faster. This new innovation does not require air conditioning as it will operate in temperatures of about 140 F. It will last 5-7 years whereas the current technology when used for Krypto Mining only last 3-5 months. Electrical usage is reduced by 85-90% thus reducing the heat generated. At the end of the day using this technology for Krypto Mining will give the Miner an edge. For the Data Center Operator and those that build and/or maintain the systems in a Data Center a big boost in business as customers move to reduce their overall costs.

If you are interested in learning all about this new innovation, please visit my website at [www.michaelrelph.com](http://www.michaelrelph.com) and ASK THE LIBRARIAN. I will have a representative contact you with the specifications and how to purchase this FIRST IN CLASS Technological Innovation.

### **PASSIVE INCOME ANNOUNCEMENT**

Krypto Currency over the past few years has become mainstream as more and more make good on their investment. Technology continues to mature making it easier to participate so that anyone who knows how to run apps on their phone can setup accounts of all sorts. The challenges to date include the ups and downs in the marketplace caused mainly by countries like China who want to regulate an “open market” but can’t so they try to shut it down. Longer term that won’t happen as the Chinese people will convert to another currency like the USD and then purchase Krypto currency. There are over 300 Million well to do Chinese who know how to work around strangle hold of Communism.

Countries are now moving towards Krypto Currency as the currency they use for commerce in their country. In essence the USD the controller of most all currencies will eventually lose control. If one were to “Read the Back of THE BOOK” aka Revelation in the Bible it talks about a One World Government where buying and selling is highly regulated requiring what John the writer refers to “The Mark of the Beast.” You merely have to look up and see that it appears we are heading in that direction as control can be reached because we are all tied to technology, aka the Smart Phone.

In the meantime, hiding in a hole or a cave is NOT a FUN option. Moving ahead learning of what is out there and making “educated intelligent decisions” is the best we can hope to do. To do it with the life passion you have chosen for yourself will help keep your eyes on the prize.

Since last March my eyes were turned to The Hyperfund setup by The Hyper Community. It is a collection of gentlemen who have been involved in founding Krypto Currencies like Bit Coin. They are in the business of creating the infrastructure needed to support the using the currencies where they get a piece of each transaction much like on-line banking and e-Commerce does. They Hyperfund is a residual income potential to be as large as you wish it to be.

The Hyper Community looks to use the Hyperfund to establish a 30 Million user base for their applications by awarding the members of the Hyperfund. It is no secret that this group wants to have the largest IPO in history. Members stand to make significant returns from this IPO.

In the meantime, when one becomes a member of the Hyperfund, today the community provides membership rewards of three times the original membership purchase. Rewards are distributed daily at the rate of ½-1% of the original membership purchase. Today there are some FIVE revenue streams that can be created as one can build a network of fellow members seeing rewards based on their performance. These revenue streams are established and grow based on the performance of your network 20 levels deep.

Though the system is built off of Krypto Currencies you don't have to be an expert to participate as there is training available through video's, various documents and manuals, and through personal training and mentorship members like myself to include the leaders who are training and coaching others fulltime. To get started one can ASK THE LIBRARIAN and I will send you and invite to ZOOM calls to introduce you to some of these leaders who will present and answer any question that you have before you get involved.

Through the Hyperfund System you will begin to learn not just about the system itself but about the Krypto Currency Industry and Marketplace through on-going education where one can become recognized as a consultant and get paid handsomely for it. In addition, you will be rewarded with a funding to participate in mining, and other new technologies that are being developed for the industry that will become additional revenue streams for you over and above the Hyperfund System.

Personally, my membership has grown over 8 times since mid-March. I look for it to become my "Elephant in the Room" (main source of income) by my 1<sup>st</sup> anniversary. Once that happens, I will like others go fulltime as a leader, a coach, a mentor and not have to be concerned with "getting paid" up front for my base income. This enables me to easily work my passion of Education, Music, and Business Strategy all in line with my faith I believe will keep me young and capable for another few decades.

For those who are a part of Non-Profits, Public Institutions, Churches, and organizations that depend on receiving gifts and donations the Hyperfund is a perfect opportunity to have people get involved and not have to continually donate large sums of money as the organization can be setup where it sponsors the stakeholder community for that organization as members where they in turn will receive rewards at any level they seek giving them more time to work their passion for that organization and its cause. I would be more than happy to demonstrate. Just ASK THE LIBRARIAN.

In the future I will be providing updates about the Hyperfund and its community.

I will also talk about the history and current events of traditional currencies noteworthy of discussion. So, stay tuned, and by all means check out the Hyperfund by ASKING THE LIBRARIAN on my website [www.michaelrelph.com](http://www.michaelrelph.com).

## COMING EVENTS

### December.9<sup>th</sup>

Macomb Chamber of Commerce Luncheon – Sajos Restaurant – Clinton Township. ASK THE LIBRARIAN for details – Very elegant Italian Restaurant, going to love it...

### December.18<sup>th</sup>

A Classic Christmas Concert – Woodside Bible – Troy Michigan. If you love to be entertained and even sing along with Christmas Music and witness the magic and wonder of the Celebration of Christ's birth, this is the place you will not want to miss. It will be very elegant and formal. A two hour program with a very elegant intermission planned with refreshments and hors d'oeuvres to pleasantly sweeten your experience. We finish the concert with everyone standing and singing the Hallelujah Chorus, one of my favorites!! I have been a member of this choir since January of 1976. You will see and yes, hear me loud and clear from the stage to an audience of over 2,500. To get tickets you can look up [www.woodsidebible.org](http://www.woodsidebible.org) and look up The Classic Christmas Concert. If you would rather ASK THE LIBRARIAN you can do so there as well.

You can ALWAYS find me every Sunday Morning – Live at 8:15am on-line at [www.woodsidebible.org](http://www.woodsidebible.org) in the choir “Singing from the Toes!!”

## CONCLUDING REMARKS

The month of December is always very busy either preparing or participating in Holiday Festivities. I trust that through your deepest heart of giving to others you find fulfillment and joy, exercising your passion for life giving to others as an example of one of the principles of a Life-Well-Lived.

I trust that you respect others by stepping back if you are not feeling well and work towards getting better. You can help by keeping your hands and face very clean, that you help keep touch points clean. If you sneeze or cough to do so in the inside of your elbow.

So, please stay well, have fun, and be contagious do it!!

Wishing you and your family all the best,

The Macomb Maestro - Michael Relph
